DETAILED ACTION

Allowable Subject Matter

Claims 69,72,75,77-82 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 112

Claims 1,65-89 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1, line 11 'the elongate sides', claim 70, line 1 'the port', claim 71, line 1 'the port' have no proper antecedent basis. In claim 88, it is not clear what elements are being positively claimed. In claim 89, a method claim should not depend on an apparatus claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 65-68,70,71,73,74,76,83-88 are rejected under 35 U.S.C. 102(b) as being anticipated by Ihara et al. This patent shows in figures 1,2 and 17 the apparatus **as broadly claimed**. This includes a rotating grinder shaft in a container, the shaft including a plurality of port holes 3. Note that the grinder head is held to be the bottom

of the shaft and the helical blade bottoms. Also, the intended use of the ports 3 is a matter of choice only i.e. applicant has ports in his shaft and so does the patent, even though they are for different uses.
